## LOG GRAPPLES & TRAILERS

## LOG HANDLING LOGISTICS

# SKID STEER LOG GRAPPLE

When lifting and handling is required, trust the strength and agility of the Wallenstein LX Skidsteer Log Grapple. Load, unload and transport timbers up to 1500 lbs. out of the woods and onto the sawmill quickly and easily. Built specifically for skidsteers, the LX 5300 and LX 5200 are ideal for sawmill operators that need precision handling and controlled movement of heavy, awkward logs.

### 360° HYDRAULIC GRAPPLE ROTATION

LxWxH: 48" x 48" x 41"

Weight: 470 Lbs.

Grapple Rotation: 360° Continuous Hydraulic  
Grapple Opening: 3" - 38"

Mounting: Standard Skidsteer Quick Attach  
Lifting Capacity: 1500 Lbs.

# WALLENSTEIN SKID STEER LOG GRAPPLES

## BYPASS GRAPPLE

Thick or thin, the grapple's tines fold together holding tight anything from 3 inches to 38 inches in diameter.

## BRUSH HANDLING

## CANTILEVER CRADLE

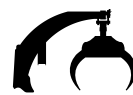

Leverage your load without losing control using the serrated cradle that steadies the logs in-line for straight-on loading or transport.

## SPRING CENTERED GRAPPLE WITH LOCKING POSITIONS

Spring Centered Return

Lateral Lock

In-line Lock

LxWxH: 46" x 48" x 40"

Weight: 477 Lbs.

Grapple Rotation: 180° Spring Center

Grapple Opening: 3" - 38"

Mounting: Standard Skidsteer Quick Attach

Lifting Capacity: 1500 Lbs.

**THREE POINT HITCH**

# LOG GRAPPLE

## TURN THE CORNER ON LOG HANDLING

To get ahead you have to cut corners, except with the flexible Wallenstein three-point hitch log grapple for compact tractors. The spring-loaded swivel grapple makes sure your logs follow you home around every bend and turn in your woodlot. The LX 5100 also reduces damage to your trails and logs by lifting the front end off the ground. This eliminates deep ruts and minimizes surface contact to the end of the log. So, pull it all together with the most efficient way of forwarding logs out of your forest using a compact tractor.

### SPRING-CENTERED BYPASS GRAPPLE

LxWxH: 41" x 29" x 32"

Weight: 275 Lbs.

Grapple Rotation: 180° Spring Center

Grapple Opening: 3" - 38"

3 Point Hitch Category: Category 1

Rec. Tractor Size: 20 - 45 Hp

Boom Lift Capacity: 1500 Lbs.

**LOG DISTANCE HAULING**

Designed for longer distance hauling, the Timber Talon is both a log grapple and trailer capable of handling heavy loads both on and off road. The Talon's LX 100 boom and grapple also gives you strength and power for heavy lifting, long reaching and wide diameter holding. The pivoting boom is operated hydraulically and is supported by two stabilizers for a wider base.

**BOOM & LOG GRAPPLE**

- Use with LT40 or HT40 Trailers
- Weight: 790 Lbs.
- Maximum Reach: 10'
- Grapple Rotation: 360° Continuous Hydraulic
- Grapple Opening: 3" - 38"
- Stabilizer Width: 10'
- Recommended Hydraulic Flow: 1-2 GPM
- Dipper & Grapple Cylinders: 2.5"
- Main Boom Cylinder: 3"
- Stabilizer Cylinder: 2"
- Lifting Capacity: 1200 Lbs.
- Requires one:**
- L501 Power Pack: Honda GX160
- L101 Flow Diverter Hose Kit (For Tractors)

Log Grapple Trailer

## OFF ROAD TRAILER

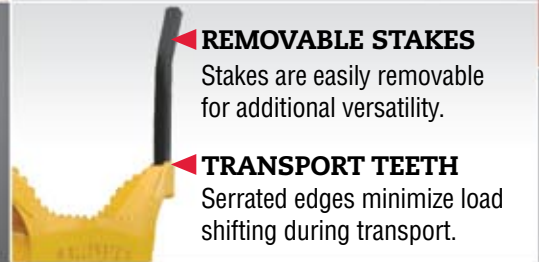

### TIRES & AXLES

8-ply Traction tires provide grip and durability on rough trails while the Walking Beam axles absorb bumps and ruts for smooth trailing.

LX100 Shown with LT40

**4900 lb. CARRYING CAPACITY**

### REMOVABLE STAKES

Stakes are easily removable for additional versatility.

### TRANSPORT TEETH

Serrated edges minimize load shifting during transport.

**HIGHWAY  
TRAILER**

**TIRES & AXLES**

Ready for the road, the HT40 is equipped with long lasting highway treaded tires that roll smoothly while giving you the traction you need.

**IMPACT RESISTANT LIGHTS**

Rubber boots serve a dual purpose - to provide shock absorption protecting lights from impact time after time, and to resist moisture. Trail with confidence knowing that others are fully informed of your roadway intentions.

**HT 40**  
HIGHWAY TRAILER

LxWxH: 19' 2" x 72" x 90"  
Trailer Bed Length: 10' 6"  
Weight: 2150 Lbs.  
Tires: Carlisle ST205/75R14  
Axles: 3500#  
Load Capacity: 4760 Lbs.
