LOG GRAPPLE TRAILER

LX100 LOADER
LT40 TRAILER

FOR COMPACT TRACTORS

Grasping at straws when it's time to transport logs? Grab hold of the Wallenstein Timber Talon for strong and smooth log handling.

TIMBER TALON

It's easy to see why the Wallenstein Timber Talon grabs your attention with its lifting capacity of 1200 lbs. and carrying weight of 4,900 lbs. The Timber Talon is the easiest way to transport large, heavy logs for firewood or the sawmill. The boom and grapple quickly and easily pick up logs within a 10-foot radius and gently stack them on the trailer. The logs are then firmly cradled for travelling on long, rough trails.

Reach a new level of woodlot management that's easier on you and your forest with the Wallenstein Timber Talon.
